## ASTM-F792-08 9 Test Step Wedge Case

The ASTM F792-08 Step Wedge test object case is used to calibrate and evaluate performance levels of X-ray screening systems in nine distinct test areas using multiple x-ray test pieces.

To meet the need for testing sophisticated X-ray systems, the new ASTM F792-08 Step Wedge is manufactured to strictly comply with the FAA, TSA, Transport Canada, and DHS requirements.
