

DSADetection®

SINGLE FOCUS. SINGLE SOURCE.

INERT THREAT SCREENING KIT TSK1000 (X-Ray Correct)

This kit contains 66 different threats a security officer may encounter at a checkpoint, including X-ray correct guns, knives, explosives simulants, and IED firing circuits. This kit gives users the ability to build different configurations of inert IED threats so they can present different scenarios to security officers. Great for training or conducting penetration testing, the DSA TSK 1000 kit is the perfect tool for checkpoint security operations.
